

**Your customers are 10 minutes
away.
Are you?**

Own your category. Every single day.

We Grow With You.

Propelpad is the growth partner for D2C brands on Q-Commerce, E-Commerce, and D2C platforms. We work with your brand like a founder would owning growth, not just executing tasks.

Q-Commerce Is Where Your Customers Are.

Quick commerce has fundamentally changed how consumers discover, decide, and buy and brands that dominate these platforms don't just win sales, they win entire categories.

The opportunity is massive. But simply being listed is not enough.

01

Seconds, Not Days

Consumers discover and purchase within minutes, not days. If your brand isn't visible at the right moment, a competitor wins that sale.

02

Algorithms Reward the Prepared

Platform algorithms reward brands that play the game well; keyword rankings, conversion rates, ad efficiency, and stock health all feed into how often your brand shows up.

03

Daily Vigilance Wins

The brands winning Q-Commerce today have someone watching these signals every single day.

What Most D2C Brands Are Up Against

The platforms are hard to crack. And once you're in, staying visible is a full time job.

01

Low Platform Visibility

Buried beneath competitors with no clear strategy to climb the shelf.

02

Wasted Ad Spend

Campaigns running but not converting. Budgets draining without meaningful scale.

03

No Growth Owner

Agencies execute tasks, but nobody is truly accountable for your numbers.

04

Hard to Get Listed

Blinkit, Zepto, Instamart, and Flipkart Minutes have strict onboarding gates. Most brands spend months trying and still don't make it.

We Are Not an Agency.

We Are Your Growth Partner.

Traditional agencies work for you. Propelpad works with you. Most agencies bill hours and deliver reports. Propelpad embeds into your brand like an in-house growth team, one that is accountable for your revenue, your rankings, and your category position.

01	Founder Mindset	We operate with a founder mindset. Every decision is tied to revenue, not deliverables.
02	Aligned Compensation	Our compensation is directly linked to your growth. We earn when you earn, which means we push hard every single day.
03	Daily Execution	We don't hand over a strategy deck and disappear. We are in the platforms daily, adjusting, testing, and scaling.
04	One Team Owns Everything	No gaps between your growth strategy and your execution.

Agency vs. Propelpad

How the two compare, side by side.

Traditional Agency

Paid on Ad Spend

Bills hours and ad spend, *no matter the result.*

What this looks like:

- Works FOR you, not with you
- Paid on spend and hours, not results
- Delivers reports, not outcomes
- One vendor among many. Zero ownership

Propelpad

Paid on Your Revenue

Earns a % of your revenue, *not just for the hours worked.*

What this looks like:

- Works WITH you, like a founder
- Compensation tied to revenue, not spend
- Owns strategy, execution, and outcomes
- One partner across growth and fulfilment

We Get Your Brand Into Platforms Most Can't Access Alone

Direct relationships with category managers across India's biggest Q-Commerce and E-Commerce platforms.

BLINKIT

INSTAMART

ZEPTO

FLIPKART MINUTES

AMAZON

BIGBASKET

01

We Get You Listed

Navigating onboarding requirements, documentation, and category allocation that most brands can't do on their own.

02

Catalogue Setup Done Right

Listings, images, pricing, and compliance configured for performance from day one.

03

Direct Advocacy

When issues arise or opportunities open up, we have the right conversations fast.

04

Ongoing Management

Account management, sponsored ads, and ranking optimisation on every platform you are live on.

Most brands spend months trying to get onboarded onto Blinkit or Zepto. We cut that timeline dramatically.

What We Do Every Single Day

Growth ownership is not a monthly review call. Here is what happens behind the scenes.

01	Keyword & Search Management	Monitor rankings, add high intent search terms based on trend shifts, remove inefficient keywords, and track competitor movements in real time.
02	Bid & Cost Efficiency	Daily CPM and CPC monitoring, bid adjustments based on conversion velocity, and budget reallocation toward high-performing SKUs.
03	Listing & Conversion Monitoring	Tracking SKU level conversion rates, pricing and discount calibration, and listing visibility checks.
04	Platform Algorithm Signals	Monitoring search placement fluctuations and managing stock health signals that affect rankings.
05	Performance Intervention	When ROAS drops, we act within hours; not at the next weekly call. Winning campaigns scale fast, losing ones get fixed or cut.

These daily optimisations compound - lower acquisition costs, consistent ranking growth, sustained revenue scale.

Why Brands Choose Propelpad

01	Direct Platform Relationships	Category manager connections at Blinkit, Zepto, Instamart, Flipkart Minutes, Amazon, and BigBasket – relationships most agencies simply do not have.
02	Aligned Incentives	We earn a percentage of your revenue, which means our interest is identical to yours – grow the brand, grow the number.
03	Hands On Daily Execution	We are in the platforms every day – not preparing for the next client presentation.
04	One Team Across Everything	Growth consultancy and fulfilment under one roof – no gaps, no finger-pointing between vendors.
05	Transparent Reporting	Real-time dashboards, weekly reviews, monthly P&L snapshots – you always know exactly what is happening and why.

Your First 90-120 Days.

Quick commerce onboarding gates are strict - most brands spend months trying and still don't make it through. Here's how the engagement is structured while we get you live.

₹1,00,000/month covers the onboarding sprint. Platform access, docs, and catalogue setup until you're live.

01

Month 1 & 2 : Pitch and Setup

Pitching the brand to all platforms, category mapping, compliance documentation, brand registration, and catalogue prep across every platform you are targeting.

02

Month 3: Platform Onboarding

Our category manager relationships go to work. Securing listing approval, SKU mapping, and pricing setup on Blinkit, Zepto, Instamart, and Flipkart Minutes.

03

Month 4: Go Live

First orders go live, campaigns launch, and performance baselines are set before we move into full platform management.

Still paying your agency to “manage” your ads?

Let's talk.
